## **DETAILED ACTION**

### ***Remark***

1. Claims 1-4 have been cancelled. Claims 5-6 are pending, and claims 7-26 have been previously allowed.

### ***Allowable Subject Matter***

2. Claims 5-26 have been allowed.

### ***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest a wireless transceiver comprising a plurality of antennas, and antenna switch coupled to the plurality of antennas, and a media access controller, coupled to control said antenna switch, that determines when to switch to another antenna based on packet error rate, wherein said media access controller comprises: CRC check logic that determines an error in a received packet; a timer that determines a predetermined amount of time after a packet is transmitted; a memory that stores at least one packet error count; and antenna select logic, coupled to said CRC check logic, said timer and said memory, that counts received packet errors using said CRC check logic, that counts transmit packet errors using said timer, and that controls switching to another antenna as claimed in claim 5; and an antenna diversity system for a wireless transceiver having a plurality of antennas, comprising: an antenna switch for selecting from among the plurality of antennas; at least one counter that stores a packet error count; at least one packet error detector that detects a packet communication error; and antenna select logic, coupled to control said antenna switch, said at least one counter and said at least one packet error detector, that increments said packet error count when a packet

communication error is detected, that compares the packet error count with a threshold value to determine whether a threshold condition is met, and that switches the antenna when said threshold condition is met as claimed in claim 7; a method of selecting from a plurality of antennas of a transceiver as called for in claim 15.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
